

Ease pressure on your team with the perfect alternative to manned security. Introducing **INSTABOOM**, the UK's first solar / hybrid, instant deployment, work zone protection vehicle barrier.

Features:

- Telematics for battery monitoring, up/down status, email alerts and remote operation
- 4m collapsible boom with rest post
- 800m rugged radio remote control
- Anti-contact laser safety beam
- Warning beacon
- Solar (<150 opens per day)
- Mains top up
- Compact, 85x55cm rolling chassis

Upgrades

- Key code, swipe or GSM access
- Overhead protection

Key benefits:

- + **Rapid Install** - Deployed by one person in seconds
- + **Closures** - Instant road closure for construction, highways and GS6 over height protection
- + **Simple** - 800m radio fob and quick collapse boom
- + **Reliable** - Solar powered up to 150 times a day/night
- + **Hybrid** - One month between charges without sunlight
