

EXPERTS IN PORTABLE TRAFFIC
& PEDESTRIAN TECHNOLOGY

Pedestrian Signals

SRL's Pedestrian Signals can be used as a stand alone product or as part of a junction aiding pedestrians to cross safely whilst vehicles are controlled.

- Radio linked
- Push-button controls replicate permanent pedestrian crossings
- 3x 12v batteries per signal providing a minimum of 7 days running time
- Folding post design to allow for easy deployment
- Specialised claw locks for security
- Easily transportable on trailers
- Compatible with SRL Remote Controls
- Available with SRL Solar PLUS®

Radiolight Pedestrian

- Up to 6 signal boxes (4x traffic signals with 1x pedestrian crossings)

ELC Pedestrian

- Up to 8 signal boxes (4x traffic signals with 2x pedestrian crossings)

Eurolight Pedestrian

- Up to 18 signal boxes (no limit on number of pedestrian signals used)

Pedestrian Portable
