

UNRIVALLED INNOVATION

Smart Tracker

Track the location, status and battery life of your signals live on-site using GPS technology with SRL's smart tracker. Never get called to a false alarm again.

Key features:

- Asset security tracking by fleet number
- GEO-fencing facility
- Anti-theft alarm facility
- Battery theft alarm
- Battery voltage display and alerts
- Alarm for voltage drop
- LED status monitor

Key benefits:

- Real-time location of asset
- Enables you to plan your battery exchanges
- Enables you to login; status light indicates if signals are on red or green
- Available with long term contract hire
- Unrivalled UK coverage & 24/7 support

Requires subscription
